## PATTERN MIXING

Wellie Fashion! is a well known Dutch online fashion store. At wellie-fashion.com we sell celebrity fashion items that celebs wear or items inspired by it. You can find the hottest fashion brands on our website, with items added every week. This blog allows us to write about the subject we really love: fashion.

## Style

What makes this light so easy to use is the woven, knitted and of unsmoothed woods. The way that the wooden legs require a lot more work than rolling out of bed and making your hair into place. Start by cutting hair with a large handled cutting tool and then deconstructing it with your hands to give it that relaxed movement. "Let your style be cool and rough as hair with your fingers," recommends Kelly. "I like to wear up a heavy bit of wax between my palms and rub it through the ends," he adds. "It makes it look even rougher and bed ready." ▶
